## **DESCRIPTION**

Boston Run is a classic thriller. The NSA takes up the hunt for an ex-secret service agent and his friend who plan to win the Boston Marathon, and the \$150,000 prize money, aided by a perfect doping substance. The doping substance is merely a literary ploy to lend the dynamic and extremely suspenseful pursuit throughout Boston credibility. The topic of doping itself plays no further role. On the contrary, the entire effort serves a much greater plan...

Although the plot is centered on the Boston Marathon, not only racers will be running to buy it! Readers in Germany prove this point.

No blood is lost in the novel and it was written several years before the bomb attacks in 2013.

**There already is a successful sequel "New York Run", and "Chicago Run" will be published in Germany in 2018.**
